

## **NIDB Medium 25**

### **Oatmeal agar IV (OA IV)**

#### **Agar Medium:**

Oatmeal ..... 30.0 g  
DI Water ..... 1000 mL

Heat 30 g oat flakes in 1.0L water till boiling and simmer gently for 2 hours. Filter through cheesecloth and sterilize for 1h at 1 atm. Fill up to 1.0L. When using powdered oatmeal, filtering is superfluous. Lupin stems may be placed in slants with oatmeal agar.
